REDUCE YOUR WASTE PROBLEMS

**Unibaler are
Danish products**

Thank you for your interest in Unibaler UX4

UX4 is Unibaler's most popular among the smallest models, this is due to, among other things:

- good price
- easy to operate
- the bale is tipped out automatically
- runs on standard 1x240V power
- doesn't use much space
- easy to change straps
- Unibaler's own designed binding system - which makes it easy to tie the baler - takes only 3-5 minutes!
- Unibaler's unique design with extra reinforcement on both sides of the press plate to minimize the risk of wrong loading.
- Schneider Electric operating system, one of the world's leading suppliers

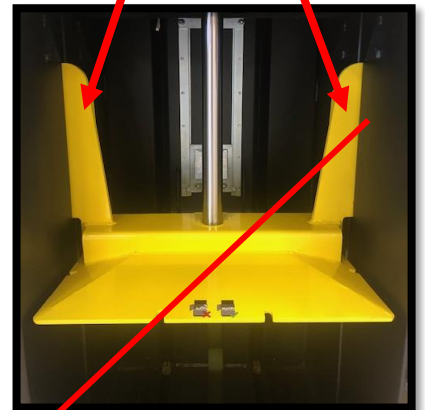

- **"Plug and Play"**
Unpack it, plug in, and you're ready to press
- exceptionally solid - a "fighting weight" of more than 500kg

Unibaler's own designed binding system
– it only takes 3-5 minutes to tie a bale

NOTE at Unibaler only: extra reinforced press plate with support on each side to minimize skew loading

Built-in knife
