

Offer UX10

REDUCE YOUR WASTE PROBLEMS

Thank you for your interest in Unibaler UX10

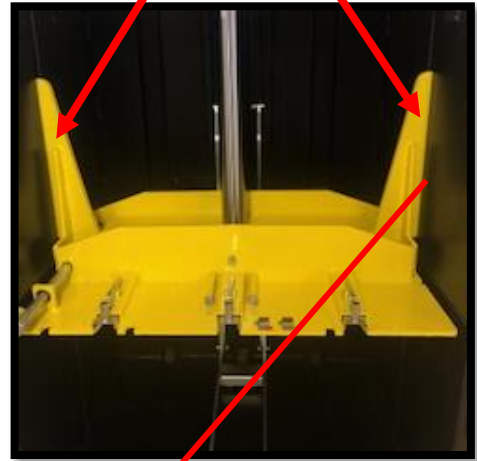

The UX10 is among Unibaler's most popular models, which is due to:

- good price
 - easy to operate
 - large filling opening
 - the finished bale fits an EU pallet
 - the bale is tipped out automatically
 - extra solid discarding device, made of steel
 - easy to change straps
 - Unibaler's own designed binding system - which makes it easy to tie the baler - takes only 3-5 minutes!
 - Unibaler's unique design with extra reinforcement on both sides of the press plate to minimize the risk of wrong loading
 - Schneider Electric operating system, one of the world's leading suppliers
- Life Is On | **Schneider**
Electric
- **"Plug and Play"**
Unpack it, plug in, and you're ready to press.
 - Exceptionally solid - a "fighting weight" of more than 700kg

Unibaler's own designed binding system
– it only takes 3-5 minutes to tie a bale

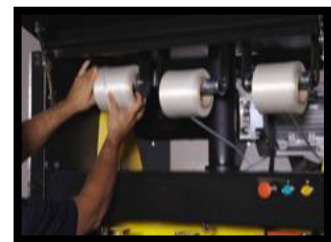

NOTE at Unibaler only: extra reinforced press plate with support on each side to minimize skew loading

Built-in knife

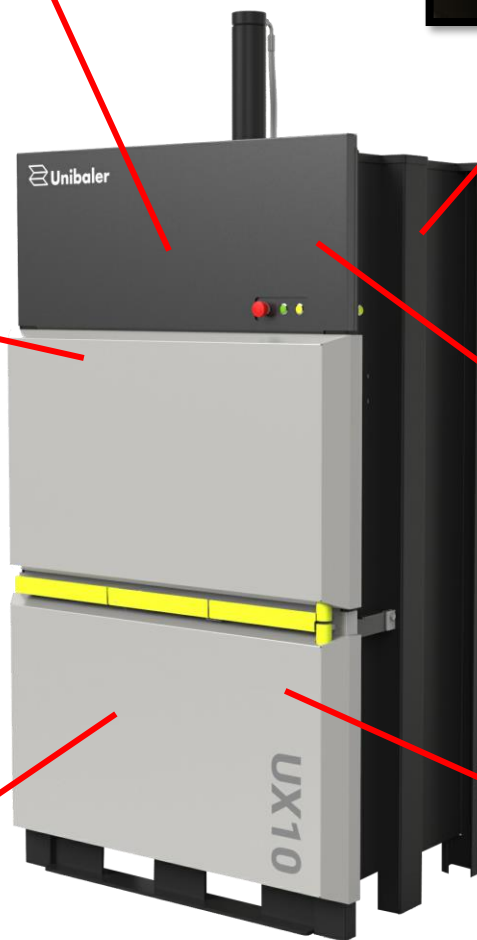

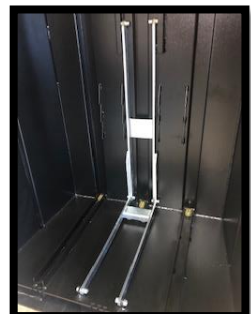

Easy to replace straps

The bale is tipped out automatically

Solid bouncer in steel

References
